

Program design and facilitation

Hand a volunteer team a session they can actually run.

DELIVERED · RUN WITH A LIVE AUDIENCE

SCHEMATIC

Six evenings. Two of them written, rehearsed and led.

DELIVERY LANGUAGE

Plan B

IN EVERY ACTIVITY

WHAT IT IS

Content for a volunteer-run youth program, written in Spanish and built to be executed by people who are not the author. Each session ships as a timed script - hook, marked pauses, a physical illustration, a closing commitment - and each group activity ships with roles, materials, a safety note and a plan B for when the room does not cooperate.

WHAT IT CHANGES

A co-leader can pick up the script and run it without rehearsing with you

Timing is designed, so a 30-minute slot stays a 30-minute slot

Every activity carries a fallback, because the room never behaves

SOMETHING LIKE THIS, FOR YOUR WORK?

The interesting part is your version of the problem.

Tell me the workflow that costs you the most time or the most trust. I will tell you honestly whether a system fixes it.
